## Voters to Elect 10 In School Elections

18 Polling Places Open In Quad-City Districts At Noon on Saturday

(Candidate data, Pages 40, 41)

Polling places will open at noon Saturday in 18 locations for balloting in this year's school elections in the Quad-City area.

Voters will ballot in 15 polling places in Granite City District 9, two polling places in Madison District 12 and one in Venice District 3.

Balloting will continue until 7 p.m. when all polling places will close. Voters will be counted immediately after the polls are closed.

Granite City district voters will elect three board members to regular three-year terms and one member to fill a one-year unexpired term, while Venice district voters will elect a like number, three to regular terms and one to a two-year unexpired term. In Madison, voters will choose only two members for regular three-year terms.

### Campaigning Quiet

Despite predictions of a heated campaign in Madison, a result of racial strife at the high school last November, the campaign has been comparatively quiet with most campaign efforts confined to small group meetings and circulation of handbills. Incumbent board members Del Blumenthal and Frank Derner, whose terms expire this year, are candidates for re-election, opposed by four other candidates.

One of these is Thomas Watson, a railroad agent who played a prominent role in the leadership of white parents who fostered a boycott of high school classes by white students as part of last November's difficulties. Another is Rev. Lonnie C. Calmes, pastor of the Friendship Baptist Church, who is backed by the Madison chapter of the NAACP. The NAACP spearheaded violent protests of school policies last November resulting in a week-long boycott of high school classes by the bulk of Negro students.

Other candidates in the Madison district race are William L. Gushel, formerly a teacher in the Madison school system but now a civic instructor in the Belleville Township high school; Charles E. Johnson, an insurance agent; and Henry P. Scott, an electrician.

Text of Citation

SP4 John J. Chomko, son of Mr. and Mrs. Michael Chomko, 2534 Sheridan avenue, this week received the citation from the Department of the Army, Headquarters First Infantry Division, for a Silver Star Medal which he received in Vietnam.

The award was made for action last Jan. 6, in the Republic of Vietnam "for gallantry in action against a hostile force."

He was serving as a radio-telephone operator for his company commander on a search and destroy mission near Chanh Luu, and while moving through the thick underbrush, his unit suddenly received intensive hostile sniper fire from both flanks.

### Text of Citation

"Upon hearing the initial burst of fire, Sp4 Chomko moved forward with the command group to tie in with the lead element. As the sniper fire intensified, the order was given to withdraw so artillery fire could be placed on the insurgents. While falling back the company commander was seriously wounded.

"Specialist Chomko immediately called for snipers and

The special registration periods, held by the clerk's office prior to each major election, are scheduled as a convenience to newly qualified voters and residents required to make changes in their existing registrations, who otherwise would have to travel to the clerk's office at Edwardsville, Miss Hotz said.

Special registration periods

this year will include use of the new mobile unit acquired by the county last year for registration purposes. The van, operated by a single clerk, will be sent to various parts of the county on different dates to accept registrations in areas where no registration location is immediately available.

Permanent deputy registrars who will handle voter registrations at permanent locations within specified business hours include: Granite City—Mrs. Olive S. Slight, 2228 Bryan avenue, evenings by appointment, phone 877-2558; Mrs. Rose Turner,

In addition, she said, the county clerk's office on May 6 will remain open until 8 p.m. daily through May 13 to accept new registrations and record changes. May 13 is the registration deadline for the June 11 primary election.

## Nameoki Board Plans New Law To Control Dumps

Plans to update the Nameoki township junkyard and dump ordinance to establish more strict controls over junk autos, dumping and disposal of trash and garbage were announced by the Nameoki town board in regular meeting Tuesday night.

Harry Briggs, township supervisor, suggested the problem be studied by town board members as a committee, but no date was set immediately for a meeting. Briggs said a meeting probably will be held on a Saturday within the next month. The problem of junk autos has become a major nuisance and the board decided that an ordinance "with more teeth" is necessary.

Briggs also warned township residents that with the approach of spring, many discarded refrigerators are moved into yards or thrown into dumps. The doors must be removed from these under state law, he noted, to guard against entrapment of youngsters.

The board otherwise confided only routine business, including approval of town fund and road and bridge fund bills.

## A. O. Smith To Restart 3rd Line April 29

Expecting to Recall About 300 Workers For Afternoon Shift

Recall of 300 production workers at the A. O. Smith Corp. frame manufacturing plant is tentatively scheduled for April 29, it was announced yesterday by Paul Kelly, personnel director.

The firm plans to start up a third production line with an afternoon shift. Presently in operation are two production lines on the morning shift.

With the third line in operation, employment at the plant will reach the 1000 level for production and office personnel. About 60 workers had been laid off when the plant reopened after the 83-day strike by UAW Local 575.

Kelly said the planned start-up of a third line produces Chevrolet frames is a readjustment of the plant's production lines that were disrupted by the strike.

### Optimism Expressed

He expressed optimism that the strike-line operation would continue until the annual model change-over shutdown in July.

However, the recall of the local plant no longer turns out Corvette frames which accounted for 70 jobs. The Corvette operation was transferred to another plant at A. O. Smith.

The strike of the Boilemmers Union ended with the resumption of production on March 27, four days after the union members voted acceptance of a contract at a mass meeting at the high school here.

Before the strike, the firm's annual payroll of \$13,000,000.

## "Fine Tuning" Is Expected to End Red Dust Problem

"Fine tuning" of the \$3,500,000 electrostatic precipitator cleaning system for Granite City Steel Company's new basic oxygen furnace is still under way and is expected to be completed in the near future to end red dust complaints of residents near the installation at 20th and One streets.

Eighteen complainants were present for the city Air Pollution Control board meeting Monday evening at the city hall to tell of "red" stains to their homes and automobiles and to complain of reported air pollution by Lipsett Steel Products Co., Union Street Refining Co. and back yard trash bails.

The red dust complaints were from residents along East 20th street and the 2000 and 2100 blocks of Iowa street and Washington avenue and from steel mill employees themselves.

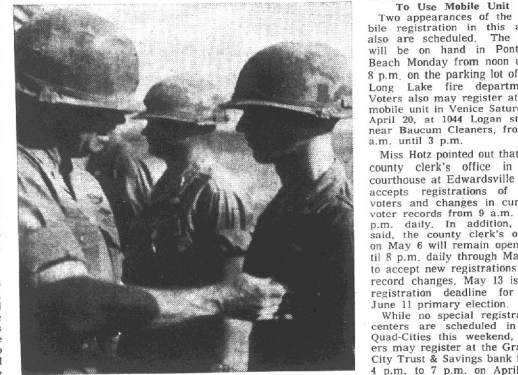

The substance was termed as "sub-micro particles that could be getting into the pores of paint"—even the paint of autos — by Donald Cairns, a Granite City Steel Co. engineer, who was at the board meeting on a voluntary basis.

To Inspect Operation After hearing the complaints, the board instructed its technical consultant, Prof. Erwin Hoelscher, to inspect the premises of the steel mill to get first hand knowledge of the conditions. The tour is expected to be made next week.

Cairns stated the time dust was not coming from the basic oxygen furnace precipitator in such quantity to cause the complaints, rather from the strong winds of the past several months blowing the dust from trucks hauling away the particles that had been taken from the furnace by the electrostatic system. The truck route is east on 20th street and across Edwardsville road to a landfill area operated by the plant.

Cairns termed the process "re-entrainment" of the dust. "Actually," he commented, "it is a re-entrainment of the dust."

## 4 Municipalities to Receive \$447,281 in '67 Taxes

Quad-City municipal sales tax revenue was up \$65,706 or 17.22% last year.

Calendar year statistics made available this week by the Illinois Department of Revenue show record revenue in 1967 of \$447,281, compared to \$381,575 in 1966.

An increase of 16% to 20% had been anticipated due to boosting of the tax by 5% during the last four months (in some cases five months) of the year. Instead of a half-cent, the municipal portion of the retailers' occupation tax rose to three-fourths of a cent.

**Steady Increase**  
Quad-City municipal sales taxes began Feb. 1, 1956, producing \$101,301 that year, \$224,207 in 1957, \$221,209 in 1958, \$251,315 in 1959, \$264,367 in 1960, \$285,650 in 1961, \$303,500 in 1962, \$297,033 in 1963, \$337,147 in 1964, \$359,084 in 1965, \$381,575 in 1966 and the \$447,281 last year.

A breakdown of the 1967 revenue shows \$770,448 for the city of Granite City (\$214,273 in 1966), \$58,855 (\$53,393) for the Madison City treasury, \$14,212 (\$12,340) for the city of Venice and \$375 (\$118) for the village of Pontoon Beach.

All these figures for 1967 and 1966 represented new peaks for the four municipalities.

The four received \$27,247 for January 1967 (\$26,110 in January 1966), \$27,778 (\$27,384) for February, \$24,315 (\$22,716) for March, \$29,277 (\$29,386) for April, \$31,545 (\$30,646) for May, \$35,433 (\$34,137) for June, \$37,759 (\$31,451) for July, \$39,955 (\$39,633) for August, \$46,732 (\$36,234) for September, \$42,017 (\$39,631) for October, \$41,151 (\$31,565) for November and \$64,146 (\$41,642) for December.

Similar breakdowns by municipalities are as follows:

**\$53,000 GC December Taxes**  
Granite City—January 1967, \$22,132 (January 1966, \$21,550), February \$22,204 (22,680), March \$28,318 (\$28,453), April \$23,929 (\$23,901), May \$26,881 (\$25,285), June \$29,146 (\$28,309), July \$22,619 (\$26,125), August \$32,393 (\$26,000), September \$38,033 (\$30,073), October \$34,432 (\$24,864), November \$34,972 (\$26,078) and December \$33,669 (\$34,433).

**Madison**—January \$4032 (\$3974), February \$3841 (\$3795), March \$4750 (\$4631), April \$4086 (\$4150), May \$3825 (\$4269), June \$5090 (\$4860), July \$5638 (\$5410), August \$5123 (\$4251), September \$5800 (\$4777), October \$6003 (\$4033), November \$5408 (\$4383) and December \$7138 (\$5685).

**Venice**—January \$833 (\$859), February \$878 (\$800), March \$961 (\$865), April \$1080 (\$1201), May \$871 (\$1100), June \$1150 (\$1189), July \$880 (\$832), August \$1229 (\$874), September \$1318 (\$1182), October \$1316 (\$778), November \$1546 (\$941), and December \$1771 (\$1314).

**Pontoon Beach**—January \$149 (\$26), February \$157 (\$22), March \$185 (\$96), April \$188 (\$45), May \$165 (\$50), June \$81 (\$77), July \$132 (\$182), August \$240 (\$357), September \$317 (\$201), October \$243 (\$154), November \$323 (\$165) and December \$1188 (\$209).

Various retailers file monthly, quarterly or annual reports. This accounts for the generally larger returns in March, June and September and, along with pre-Christmas shopping, for the December tax volume.

## Memorial Services Held for Dr. King at Venice School

Memorial services for slain civil rights leader, the Rev. Dr. Martin Luther King Jr., 39, of Atlanta, Ga., were conducted during a general assembly at 10:30 a.m. Tuesday in the Venice school auditorium.

Attendance was voluntary, and Venice Supt. of Schools John O. Pier noted very few students were absent from the service.

In addition to the memorial, sponsored by the student council, school officials arranged for television sets to be situated in strategic locations throughout the buildings where pupils gathered, also on a voluntary basis, to view the funeral procession in Atlanta.

Rev. Stanley Howlett, pastor of the True Light Baptist Church, St. Louis, a former

boxer, now employed in the personnel department of Granite City Steel Co., addressed the assembled students, paying tribute to the late Dr. King as a man of God and deep dedication to non-violence.

The minister, a former Venice resident, is active in youth employment and training programs. He was introduced by Assistant Supt. of Schools Robert N. Vickers.

There was a reading of several excerpts from Dr. King's speeches and a plea for harmony and goodwill among all men, presented by Sharon Maurer, student council vice-president.

The council spokesman asked all students and faculty members to dedicate themselves to preserving the memory of the

civil rights leader by signing a pledge, authored by senior English students and sponsored by the council.

The mimeographed pledge, contained in a black folder bearing a "praying hands" emblem in gold, stated: "I, (name), a (student or teacher) at Venice High School, Venice, Illinois, shall try with all my heart not to do anything which would desecrate the memory of Dr. Martin Luther King, Jr., in thought, word, or deed. He died

in the service of his country because he believed in the goodness of all men and that all people could live and work together in peace for a greater America. Let us make his dream come true!"

Assistant Supt. Vickers today said 150 copies of the pledge were compiled by the council, whose members distributed the folders to those high school students and faculty wanting them after the program. He noted more students requested the

pledge than copies had been prepared. The service concluded with participants singing, "We Shall Overcome." Venice students were dismissed from classes approximately one hour earlier than usual on Tuesday. Some questions relating to the Venice schools remaining open have been asked the administrators, it was learned. "The memorial service seemed a greater tribute to Dr. King's memory," a spokesman said.

## National Honors For Miss Kerch By Two Groups

The Granite City school board voted Monday night to commend Miss Barbara Kerch, 221 Edison avenue, for "outstanding accomplishments." She is director of all elementary physical education and of girls' junior high and high school physical education in the Granite City school district.

The board noted that she has just been honored nationally by two organizations, the American Association for Health, Physical Education and Recreation and the Educational Testing Service.

The AAHPER has elected Miss Kerch as a member-at-large of its executive council and the ETS has chosen her as one of five persons throughout the nation to help develop new tests to aid schools in selecting physical education teachers.

"There are only eight members nationwide on the AAHPER executive council," said Bob J. Davis told the board.

"For Miss Kerch to be selected from among all physical education leaders in the U. S. as one of eight by one group and one of five by the other testifies to her ability and to the quality of the physical education program in this district."

She is to attend a meeting of the executive council May 2-5 in Washington, D. C., and a second meeting later in the year. She also will be traveling in connection with the test project.

An extraction helicopter to evacuate the wounded men. Then, with complete disregard for his personal safety, he exposed himself to the hostile fire as he directed other men in his unit to positions from which they could place devastatingly accurate fire on the insurgents, thus securing the landing zone.

"Later, when the battalion commander landed to assume command, Specialist Chomko briefed him on the situation and continued to assist him by serving as his radio-telephone operator.

"His calmness under fire and ability to maintain control of the leaderless company contributed significantly to the successful extraction of the wounded men and to the rout of the insurgents.

"His unquestionable valor in close combat against numerically superior hostile forces is in keeping with the finest traditions of the military service and reflects great credit upon himself, the First Infantry Division, and the United States Army, as stated in the citation by the authority and direction of the President."

Sp4 Chomko arrived in Vietnam on March 7, 1967, and returned home on March 5, 1968, and after a leave at home, he reported to Fort Campbell, Ky., on Tuesday. He will complete his two years in service and expects to receive his honorable discharge in September.

WIRE FENCE erected along the property line of the neighbor on the left of the photo, creates as-yet-unresolved problems for the Arlington Heights homeowner whose garage and driveway are obstructed. Court action is planned to solve the dilemma.

## Fence in Driveway Results In Many Inquiries Here

When is a driveway not a driveway? When it has a 42-inch high wire fence erected diagonally from the front street entrance to garage doors at the rear of one's house.

This unique situation—one aspect of a boundary dispute between neighboring families in the Arlington Heights area—may appear strange to passers-by, but to the parties involved court action is planned to resolve the problem.

An interested, and completely bewildered motorist, calling a newspaper to inquire why there was such a barrier the full length of a driveway, stretching from the street to garage, He noted that with the fence's unusual angle, the homeowner was unable to use his driveway or enter his garage.

The fence, it was learned, was erected several weeks ago along the driveway at the home of Dr. and Mrs. Daniel E. Jaimet, who reside at 19 Shirwin drive, Arlington Heights. They are neighbors, Mr. and Mrs. Vernon Lindley of 17 Shirwin drive, who report their property line extends a full four-inches past the metal divider.

Lindley told the Press-Record, "We have had the property surveyed three times and the fence is still four inches back off the correct boundary line. They (the Jaimets) refuse to do anything about it, so we erected the fence and the entire matter is now in the hands of a lawyer."

The Lindley's have resided at 17 Shirwin drive two years. Dr. Jaimet purchased the house next door in December 1966 from a local realtor who was handling the sale for the original owner.

Initially, the question of property line was not an issue, Dr. Jaimet said, but now the only contact of the neighbors is through their attorneys. The dentist said his neighbors were fully aware of the encroachment onto their property before installation of the fence, and that other factors prompted its existence. An offer was made to purchase the overlapping portion of the driveway, and at one time he believed their attorneys had reached a

satisfactory agreement. "However, the fence is still there. I still cannot drive my car into the driveway or use the garage, and it is now destined to be settled through court litigation," he commented.

The Jaimets own an 80-foot lot adjoining the opposite side of their home, but the extra ground failed to alleviate the situation, the owner explained, as the blocked garage is built onto the house in such a manner as to prohibit entrance from any approach but the driveway.

"I can just manage to get between the fence and garage doors to take out the garbage," the dentist said, "meanwhile my cars remain parked out on the roadway, so it is up to the courts to decide what should be done."

Remarkably that the driveway fence is the only section of fencing on his neighbors' property, Dr. Jaimet stated. "It was erected in an obvious effort to annoy and distress us. Reaction of most people, when they first see the fence, is disbelief. But, there it is," he added.

## Prather Halts Losing Streak, Ties Coolidge

It is always exciting when cross-town teams play each other in any sports. Such was the case when Coolidge junior high school Braves and Prather Chiefs played one another at the Braves' baseball diamond Monday afternoon, but neither team was the victor. The score at the end of 10 innings of play was 5-5, and the game was called because of darkness.

The Chiefs were happier with the score than the Braves because it brought to a halt a 16-game losing streak that continued into the first game this year.

Mike Wilson hit a home run and single for the Braves and John Ireland had a triple and two doubles for the Chiefs.

Ned Tapp, Joe Wallace and Kim Gauen shared pitching duties for Coolidge while Steve Morse went all the way for Prather, walking four and striking out nine.

Coolidge scored twice in the first and three times in the third. Prather rallied to score three runs in the fifth and two in the sixth.

## Warrior Diamond Team Clicks For Three Wins

GCIS baseball Warriors made it look easy this week, besting Belleville West 7-3 in a Southwestern Conference clash here Monday. Triad-43 there Tuesday and Edwardsville 10-2 in a conference game here yesterday.

Against the Tigers yesterday, the Warriors posted out 12 hits and Gary Simpson went the route, spinning a three-hitter and striking out seven. Simpson homered in the third, Roger Belshe clouted a bases-loaded homer in the third and Jones hit a solo homer in the fourth. A four-run second inning spree included four walks, singles by Charles Fossieck and Bob Lewey and a double by Simpson.

At Triad GCIS took a 4-0 lead in the first but cooled off and was barely able to escape with the victory. In the big inning, Jones singled, Russ Roth

walker, Bob Watkins and Jim Gilmore singled and the enemy third baseman erred. Gilmore pitched the distance.

**Six-Run First Frame**  
Also bolstering the Warriors' "hit them early" reputation was their six-run first-inning spurge against Belleville West. Lewey singled twice in the inning as GCIS sent all batters to the plate. Simpson doubled and Mike Dochwat, Rich Logan, Bob James and Fossieck singled in that frame.

The Warriors played well defensively but got only one more hit in the contest, scoring in the sixth with the aid of an error. Don Rains won, being relieved after five innings by Jones.

GCIS is now 2-1 in the conference and 8-5 for the season. Next game will be against East St. Louis here at 4 p.m. Tuesday.

## Vision Role in School Achievement Discussed

Vision is closely related to school achievement, and improper reading practices can adversely affect eyesight and posture. Dr. Robert E. Schmidt, a local optometrist, told Madison Rotarians yesterday.

He urged professional visual examinations before a child enters kindergarten and annual checkups thereafter. William F. Winter was program chairman and President Harvey Miller reviewed plans for a meeting at 7:30 p.m. next Monday at the Madison recreation center on the drive to finance outdoor recreational facilities there.

It was noted that a meeting is to be held the same night, April 15, at the Hungarians hall in Granite City on possible expansion of the Specialized Services program in this area.

Harold E. Hillman of Laclede Steel Co. was inducted as a new Rotarian.

## Urges Elimination of Trash Barrel Burning

A voluntary reduction, or elimination if possible, of backyard incineration of trash by open burning, was urged today by Prof. Erwin C. Hoelscher, technical secretary of the Granite City Air Pollution Control Board. Hoelscher pointed out that while pollution from one barrel of burning trash is slight, that of a thousand such barrels adds extensively to the pollution problem.

Hoelscher noted that in a meeting this week of the clean air board, complaints were received of certain instances of industrial pollution, which are now being investigated. Correction of these is provided in the air pollution ordinance.

"A good point can be made that if industry is to be forced to reduce emissions... should not the individual citizen strive to do his part?" The ordinance does not provide control over backyard burning, he said. He also warned that in instances where trash barrel burning continues, the trash should be carefully inspected for aerosol cans or bottles which may explode during the burning. Many serious injuries have resulted from exploding cans or bottles, he said.

## Need More Volunteers For Adult Care Center

Additional volunteer assistants are needed to operate a day care center for psychiatric adult patients of the Venice-Madison area. It was reported this week by Sherman Sklar, Madison county coordinator of the Illinois Department of Mental Health.

Sklar, who can be contacted by telephoning 875-12M, said those willing to help will not be burdened with excessive responsibility. A program schedule already developed will be followed closely, and there will be supervision at all times by professionals in the mental health field, he explained.

Initial training of volunteers took place Monday and another orientation session is set for April 15.

Opening date of the day care center, which will be located at the Lee Wright Homes, Klein and Bissell streets, Venice, has been changed to April 29. Sessions will be held each Monday from 9 a.m. to 4:30 p.m.

He is now undergoing basic training at Fort Leonard Wood, Mo., and selected the regular Army as his guaranteed enlistment option.

## Plans Are Being Made For 'Cinco De Mayo'

The appointment of committee chairman to supervise arrangements for the "Cinco De Mayo" fiesta, to be sponsored Saturday, May 11, by the Mexican Honorary Commission of Granite City, was announced this week by Steve Ortiz, commission president.

Those named were Mrs. Ofelia Luff, entertainment; Mrs. Antonia Lopez, food; and Daniel Brown, ticket distribution. Ortiz is serving as general chairman for the event, which will take place at the Venice-Madison American Legion hall, Venice.

At a meeting earlier this week, commission members heard Alderman Steve Basarich report that American Steel Co. has agreed to provide a suitable piece of ground on which to establish a playground facility. It was learned the firm recently purchased a tract of land already improved for the same purpose through the efforts of the commission.

Richard Asha, a Joyce member, also met with the group and discussed plans for the "Americanism Week" celebration to be sponsored by Granite City Jaycees. He sought cooperation from the commission in obtaining signatures on a letter to be presented to President Johnson.

## \$91 Million Aid for County in Bond Issue

Approval of a \$1 billion Illinois bond issue in referendum Nov. 5 this year would provide about \$91 millions for development of water supply and sewage treatment facilities in municipalities, water districts and sanitary districts of Madison county. It was reported Tuesday at Edwardsville in a public hearing on the bond issue proposal.

The hearing conducted for Madison and six other southwestern Illinois counties to determine the needs for improvements and areas in which funds would be made available is one of 20 being conducted throughout the state by the Illinois Water Pollution and Water Resources Commission.

## Annual Dinner of Red Cross Chapter June 4

The annual dinner meeting of the American Red Cross Tri-City chapter is planned for June 4 at the Granite City Chapter of Parent-Teacher Associations, Quad-Cities Ministerial Association and Tri-Cities Chamber of Commerce.

Harold W. Davis, first to speak, said, "The quality of instruction has improved noticeably during the last three years due to a raising of standards in the classroom and in the quality teaching and new techniques. The non-graded system is one of the new methods that has advanced us in education."

"Our school system is operating in the black and many of the teachers and school districts are in the red or close to it. Our schools are operated efficiently and it would be my objective to continuously review procedures for possible further improvements."

"Boards should recognize that schools belong to all the people. They should conduct business in open session and consult individuals and groups affected by school policies."

Richard G. Roberts said school costs will continue to rise and that he is hopeful new financing methods can be found, due to unfair aspects of real estate and personal property taxes. He predicted that average yearly pay of area residents will climb toward \$10,000, with pay of school employees keeping pace. He said he has conferred with Assessor James Barton in studying the tax outlook.

Citing the public school financial burden borne by older people and those whose children attend parochial schools, Roberts supported a revision in bus service for parochial pupils.

He said enrollment gains will require construction of additional schools and denied that he has said class size should be reduced to 15 students. He said smaller classes would improve teaching effectiveness but that he realizes funds will not permit the average to drop to 15.

Morris W. Miles said, "I don't have all the answers, but I've been attending school board and PTA meetings and talking to parents and board members."

"I'd like to be a part of the team, and want to say publicly that suggestions about me seeking future school business for my employer, Pepsi-Cola, are false. This would be a conflict of interest."

"Last fall we had a shortage

# 'Fine Tuning'

shows how effective the precipitators are operating."

## Dust to be Sprayed

He explained the steel mill plans to water down the dust as it is removed from the precipitators to be hauled away to prevent the problem of the dust being blown about.

Air Board Chairman Henry Bienecki and several members asked if stack analysis had been made at the BOF and if the reports would be available to the board. Cairns said that since the precipitator still is in the process of being "tuned in" no such tests had been run, but they would be taken as the electrostatic equipment reached its design efficiency.

Prof. Hoelscher agreed that such an analysis would be costly and he could see why it hadn't been done to date.

Board Member Sidney Womack suggested that if the precipitator is to be better than 90% effective in removing the dust, the board be advised of the quantity of the dust.

## Asks "Why Worse?"

Bienecki asked the company engineer why the condition was worse than the health operation. Cairns replied that he did not believe it was since the \$3,500,000 electrostatic precipitator is nearing its design efficiency.

Prof. Hoelscher added that the open hearth furnaces had 300-foot stacks and that the particles did not hit the ground in Granite City except during periods of inversions.

Cairns said the steel mill officials were not yet satisfied with the operation of the precipitators and that design efficiency is not always possible due to breakdowns.

In reply to Bienecki's statement that air conditions were worse with the startup of the basic oxygen furnace, Lyle P. Galley, executive vice-president of the steel firm, wrote the following letter to the chairman Tuesday:

## Text of Letter

"The fact is that this system (the electrostatic precipitator gas cleaning system) installed at a cost of about \$3,500,000, is operating near its design capability of removing 90.4% of the dust from the gas stream. We are still in the 'fine tuning' stage of operation and are confident that the gas cleaning system will continue to help provide clean air."

"This system was cited by the Illinois Air Pollution Control Board last October as one of the main factors responsible for achieving a substantial reduction in the total amount of industrial particulate emissions in Madison county."

"Recent complaints of red dust from residents near the BOF plant are not the result of inefficiencies in the system itself. The precipitators are working the way our engineers and consultants have expected except on the rare occasions when some unit in the system breaks down and must be repaired."

"The complaints which originate in the area of a few blocks near the BOF plant apparently are the result of the blowing of the dust on windy days. The dust has escaped from sources other than the precipitator stack and is re-entrained into the air."

"We are investigating the engineering aspects involved in preventing this blowing of dust, and I can assure you we will do everything we can to solve the problem as soon as possible."

## Other Board Business

In other business Monday night, the City Air Pollution Control Board chairman welcomed Lance Callis, local lawyer, to the board, succeeding Burton Bernard, and named

# Deductible School Fire Insurance a Saving--So Far

The Granite City school district is saving \$6837 in premiums over a three-year (1946-49) period by accepting a \$500 deductible clause in its fire insurance, but the saving may be offset or even exceeded if any more fires occur.

A report at Monday night's school board meeting on the March 30 blaze in a biology laboratory at Granite City high school indicated that it may cost up to \$2500 to repair the damage. The fire department attributes it to arson, but there are no clues to the identity of those responsible.

The fire loss consisted of the almost complete destruction of a glass-front cabinet and contents, biology specimens, in Room 155 plus damage to the wall and ceiling immediately adjacent to the cabinet.

The cabinet was standing against an interior wall separating the room from a corridor. Two unidentified boys, an attendant, and school authorities said it would have been difficult for passersby to have seen the fire at the time the boys gave the alarm.

## Supply, Equipment Bids

Acting on bids, the board awarded purchase of instructional supplies totaling \$11,194, including \$2941 from Inlander Brothers, \$1929 from Graham's Book Store, \$1936 from Ideal, Inc., \$1726 from Blackwell Wieland, \$1015 from Bradburn School Supply, \$993 from Standard Stationery, \$601 from J. S. Latka & Son and \$90 from Jackson & Son.

Small equipment for cafeterias, principally the cafeteria at new Grigsby junior high school, was ordered in the amount of \$1077, including \$2925 from Mound City China Co., \$2619 from Peerless Hotel Supplies, and \$530 from Stearns-Imperial.

Audio-visual equipment and supply purchases totaled \$2191. The board awarded \$1000 to W. Schiller & Co. and \$250 from Watland, Inc.

A stainless steel sink for Namecki grant school was purchased from the Bensinger Co. on its low bid of \$390.

## Stallings Gas Furnace

Mechanical work to help Central junior high, the Logan annex and Marshall, Niedringhaus, Emerson and Stallings grade schools comply with the Illinois Life Safety Code was authorized, with the board accepting bids totaling \$13,335 from Triangle Heating and Tri-City Heating.

Included will be installation of a gas furnace at Stallings school, which at present is heated by coal.

Central States Machinery Co. will provide power tools totaling \$500. Bills paid totaled \$28,028 in the education fund, \$16,402 building fund, \$22,579 transportation fund, \$10,680 federal funds, \$27,165 Grigsby junior high construction work, \$38,543 from the state, \$410 education fund, \$410 education fund, \$150 federal travel reimbursements, \$51 federal travel reimbursements, \$56,684 education payroll for March and \$8000 building fund March payroll.

him chairman of the ordinance committee to aid Prof. Hoelscher with revisions to the city law. Theodore Marcius, vice chairman, was named to head the budget committee.

Also in attendance was Anthon Teiford of the state Air Pollution Control board's Collinsville office who said mobile monitoring stations still are planned for the local area.

HARVEY L. BALKE

# Harvey Balke, 59, Is Found Dead; Shotgun Nearby

Harvey Louis Balke, 59, operator of the Home Nursery Greenhouse, Inc., at 2900 Madison avenue, was found dead at his shop shortly after 8 a.m. Tuesday by an employee. Death was attributed to a shotgun wound to the head. A 12-gauge, double-barrel weapon with one shell expended was by his side.

Madison County Coroner Leonard R. Davis, who pronounced Mr. Balke dead at the scene at 8:30 a.m., estimated that death occurred approximately one half-hour earlier. An inquest will be conducted by Deputy Coroner Alvin Caste.

In a statement to police, Wayne Hoover, of 461 Hadley lane, Edwardsville, a Home Nursery employee, said he discovered Mr. Balke lying in a ground-floor hallway between the florist shop and attached greenhouse when he opened the front door to report for work.

A new box of 12-gauge shells with one shell missing was lying on an work counter near an open gun case. On top of an adjacent work counter, police discovered a note signed by the dead man. Contents of the note were not disclosed.

Deputy Coroner Caste told the Press-Record that he believed Mr. Balke had been dependent for some time, due to the ill health of his wife, Elsie, who has been a patient at the Colonades Nursing Home for several months. He was injured critically in a traffic accident last June.

Mr. Balke had managed the Madison avenue florist shop for more than 30 years and had resided in the local community about the same length of time. He and Mrs. Balke occupied living quarters above the business firm.

He had been employed by Home Nurseries, Inc., his entire adult life, having started with the company at its Edwardsville location as a youth of 16. He was born and reared in Edwardsville.

Mr. Balke was a member of Sacred Heart Roman Catholic Church, the Knights of Columbus, Tri-Cities Council 1098, and the Fourth Degree. He was a long-time member and director of the Granite City Rotary Club.

Beside his wife, Mr. Balke is survived by one son, William Balke of Highland; two sisters, Mrs. William (Lucille) Haywood of Marion, Ill., and Mrs. Irma Meek of Collinsville; two brothers, Alvin Balke of Edwardsville and LeRoy Balke of Marine; and one grandchild.

Funeral services were held today. Arrangements are given in today's obituary column.

## Performances in New Orleans for GC Band

## DARK HOURS MORE DANGEROUS

A SIX-YEAR COMPARISON of the nation's day and night highway deaths, including estimated 1967 figures, shows extra danger of dark hours. Slightly more than one-half of all traffic fatalities occur at night. However, the fatality rate at night is far greater in view of decreased traffic volume. In 1966 the nighttime rate was 10.1 deaths per 100 million vehicle miles, compared to 2.8 in daytime.

The chart also shows that prepared by the Street and Highway Safety Lighting Bureau, shows how much fatalities would be reduced at night if the rate were the same as daytime.

Experience at high-accident locations before and after installation of adequate street lighting has shown that light can help reduce accidents and deaths, according to the Bureau.

Opening prayer was by Mrs. Lucille Martin and Mrs. Alice Smith gave the devotional. Roll call was answered with Bible verses.

Closing prayer was by Mrs. Ruthel Smith and Mrs. Leita Kallenborn. Refreshments were served.

Others present were Mesdames Norma Spurgeon, Evelyn Knutt, Pauline Hargis, Lucy Stewart, Opal Ashoff and Myrtle Anderson. Next meeting will be at the home of Mrs. Helen Wilkenson.

## HEALTH and SAFETY TIPS

from the AMERICAN MEDICAL ASSOCIATION  
535 N. DEARBORN STREET  
CHICAGO, ILLINOIS 60610

## There's A Diet To Fit Your Need

The American public is now well aware that any effective weight control program must include dieting.  
Hundreds—perhaps thousands—of different diets are presented to us. Most are billed as a "sure-fire" means of trimming off excess pounds.  
The American Medical Association's home health book, "Today's Health Guide," points out that weight can be lost on virtually any dietary plan, good or bad, that ensures a calorie intake less than energy used. It is apparent, however, that many diets are only temporarily effective and do not promote the fundamental purpose of permanent weight loss.  
Reducing diets, ideal weight charts, calorie-counting tables are available almost everywhere. It is our purpose here to discuss briefly some principles of the good reducing diet.  
\* The diet should be individualized in harmony with income, national origins, religious principles and personal circumstances.  
\* The diet should be practical, consistent with work patterns and other everyday obligations and responsibilities.

\* The diet should be balanced, and in conformity with good nutritional practice.  
\* The diet should be a pattern for life, not just for the period of weight reduction.

Generally, physicians do not recommend the crash diet in routine weight reduction. Instead, a diet aimed at a gradual weight reduction over several months. It usually isn't necessary to go hungry while dieting. Your physician can help you work out a diet that will be satisfying and at the same time permit you to lose weight.

Refreshments were served by Mesdames Fox, Ward and Barnett to Peggy Williams, Diane Schwendemann, Jeanne Vaughn, Barbara Heil, Judy Mendoza, Sandra Schaeffer, Yvonne Rushing, Karen Fischer, Rosemary Lloyd, Carrie Cook, Kim Kitchen and Roseann Fischer.  
The next meeting will be April 17.

### Infant Becomes Ill While Visiting Here

Common sense is a remedy for most troubles in this life; the medicine which of all medicines is hardest to get.

Leisure time is the finished product of greater efficiency.

Next regular meeting of the Brotherhood will be at the church May 14.

## Area Pays Final Tribute to Slain Dr. King

The Quad-City area paid tribute to the late Dr. Martin Luther King without incident Tuesday.

Most stores and business throughout the area remained closed until 11 a.m. in honor of the slain Negro leader whose six-and-a-half-hour funeral service drew an attendance of more than 150,000 at Atlanta, Ga.

Many thousands of persons watched the impressive funeral rites by television. Buses of area residents were transported to St. Louis from Venice and Madison to attend interfaith services at Christ Church Cathedral sponsored by the Metropolitan Church Federation of Greater St. Louis.

One "protest movement" at Madison and another in Edwardsville—both peaceful and of short duration—were reported during the day, but police authorities said they had no reports of violence.

### Protest School Opening

At Madison a delegation of about ten pickets marched in front of the board of education office for several hours in protest of the district's refusal to close schools for any part of the school day. The pickets, mostly adults but including several youths of high school age, made their protest known and then dispersed.

Mrs. Thomas Weston, president of the Madison chapter of the NAACP, said a request for closing the schools "even for half a day," had been made several days earlier to school authorities. She said she was told the district does not have enough school days to spare to permit closing.

Several crowds of from 20 to 40 persons mostly Negroes gathered on the steps to courthouse entrances in Edwardsville early Tuesday morning to protest the opening of Edwardsville stores and the courthouse. Businesses and stores that had opened at 9 a.m. quickly heard about the demonstration and closed, placing signs in their windows noting they were closed until noon.

The courthouse, however, did not close. Chief Circuit Judge James O. Monroe and other county officials mingled with the demonstrators. Judge Monroe told them that services had been held in the courthouse last Friday and "we held services sincerely and genuinely."

### Schools Kept Open

One of the demonstrators remarked that "we know King is dead, but we want the stores to close to honor us. We are a v.e.c." The Edwardsville schools were open throughout the day, but conducted memorial services for Dr. King. Southern Illinois University conducted services Monday and paid tribute to Dr. King as "one of the transcendent world figures of this era."

Memorial services were conducted at the Southwestern campus and at East St. Louis and Alton campuses, as well as the two Carbondale campuses.

Prof. Patrick Riddleberger challenged an overbooked orderly crowd at Southwestern campus "to bring into being and to maintain the 'beloved community' which he (Dr. King) sought through his activist crusade of non-violence."

### Tributes To Dr. King

Other tributes were paid at the Southwestern campus rites by Robert MacVicar, SIU vice-president of academic affairs, William Clover, president of the student council, and William Barbee, president of the Negro Student Association.

Arthur Grist, assistant to SIU's vice-president for student and area services, read a statement from the graduate fellows of the University's New Explorations Teacher Education Program. The Nextstep group resolved to "do what we can to right the personal and social wrongs that have contributed to that death, and that today contribute to the deaths, violence and nonviolence, slow and quick, of many men."

Special music for the Southwestern campus services was by the Concert Choral, directed by Leonard VanCamp. The group sang Palestine's "Shabat Mater Doloresa" and "My God is a Rock," a Negro spiritual. Prayers and scripture readings were by Rev. Russell Wigfield, campus minister.

### Petitions To Washington

Meanwhile Rev. E. Stanley Howland, pastor of the True Light Baptist Church, St. Louis, and an employee at Granite City Steel Co., took petition signed by 15,000 St. Louisans urging the passage of the fair housing and civil rights protection bill to U.S. Sen. Everett M. Dirksen and other Congressional leaders in Washington Tuesday morning.

Rev. Howland and members of his church circulated the petitions among the thousands of persons participating in the

Gateway Arch-to-Forrest Park march and among church congregations of the metropolitan area Sunday.

"This is a bill that Dr. Martin Luther King felt was very important," Rev. Howland said. "To support its passage is a fitting tribute to him and the most effective way to forward his work. To follow any other course of action would be to deprecate the memory of a truly great American."

### 7 Go To Atlanta

A group of seven Madison and Venice residents attended the funeral services at Atlanta, leaving Venice by bus Monday night. The group returned yesterday.

The group included Hugh Hairston, Venice, state finance officer of the NAACP, Mr. and Mrs. R. G. Harper, Mrs. Wade James Rev. Forth Oliver of the Bethel AME Church and Rev. C. T. Boatner, Eagle Park.

Hairston said the Madison NAACP chapter has called a meeting tomorrow night at which a report on the Dr. King services will be made. The meeting will be held in the Bethel AME Church in Venice and will be open to the public. Those attending the meeting also will discuss Saturday's school election, Hairston said.

### Tri-Faith Service

A Tri-Faith memorial service was held in memory of Dr. Martin Luther King Jr., Tuesday at 2:45 p.m. on the grounds of Alton State Hospital.

The services were conducted by Rabbi Samuel P. Hober and hospital chaplains, Father Louis Souders and Rev. Warren Wyck. Miss Rosemary Jackson, an SIU student, was the memorial speaker. Employees and patients, as well as community citizens were invited to attend.

**School Election**

field in the Granite City District 9 election, but one of these already has won election by default. He is Arthur "Pete" Metcalf who is seeking election to a one-year unexpired term. Metcalf, now serving in the post by appointment, was the only candidate to file for this post. Candidates must specify in filing their nominating petitions that they are seeking either regular terms or unexpired terms.

Donald W. Stucke and George E. Moore sr., incumbents whose terms expire this year, have filed for re-election. Royce Timmons, the third incumbent whose term expires this year, did not seek re-election.

Also in the Granite City contest are Morris W. Miles, merchandising manager for a soda bottling firm who was an unsuccessful candidate in last year's school elections; Arthur Gitchoff, an insurance and real estate agency operator; Harold W. Davis, an electrician at Granite City Steel Co., and Richard Roberts, an inspector at Dow Chemical Co.

**Must Elect Rural Man**  
Stucke, Moore, Metcalf, Gitchoff and Roberts are candidates as urban members of the board, while Miles and Davis are candidates for rural memberships. Under existing laws, one rural member must be elected, regardless of whether he outpolls urban candidates.

There is no contest for election to the three regular memberships open to election on the board of Venice District 3 this year. Incumbent members Leo Davinny, Elmer Taylor and Jack Tolliver, whose terms expire are candidates for re-election without opposition.

Two candidates are contesting a two-year unexpired term, however. The voters' choice lies between Richard Bailey of Eagle Park Acres, now serving in the post as an appointee, and Willie C. Johnson of Venice, an employee of the data processing division of the United Fund of St. Louis.

**Registration Requirement**  
Voters in Saturday's balloting, under a two-year-old law, must be regularly registered voters with registration records in the county clerk's office at Edwardsville. Prior to two years ago, voters in school elections were required only to sign an affidavit that they were qualified to vote.

Miss Eulalia Hotz, county clerk, said that voters in school elections still must sign an affidavit, but that the affidavit attests that the applicant for a ballot is a registered voter.

Miss Hotz said that while her office ordinarily is closed on Saturday, she plans to have a clerk in the registration office during the period the polls are open—from noon until 7 p.m. Saturday—to check the records in event such questions might arise in connection with the voting.

The single polling place for balloting in the Venice district is the Venice public school at 740 Broadway.

In the Madison district, voters living in all of the district east of the Terminal Railroad tracks will cast their ballots at the Harris school, Seventh street and Alton avenue, while those living west of the Terminal tracks will vote at Blair school, College and Meredocia streets, in North Venice.

**GC Polling Places**  
Polling places for voters balloting in the Granite City election are:

Precinct 1—McKinley school, 22nd and Iowa streets; Precinct 2—Lake school, 3201 East 20th street; Precinct 3—Washington school, 2600 West 20th street; Precinct 4—New Logan school, 2400 West 25th street; Precinct 5—Emerson school, 20th and Benton streets; Precinct 6—Webster school, East 25th and Kate streets; Precinct 7—Marshall school, Marshall avenue and Victory drive; Precinct 8—Niedringhaus school, 20th and State streets; Precinct 9—Frohardt school, 2040 Johnson road; Precinct 10—Maryville school, 4651 Maryville road; Precinct 11—Wilson school, 2400 Wilson avenue; Precinct 12—Namook school, 1620 Pontoon road; Precinct 13—Parkview school, 3200 Maryville road; Precinct 14—Mitchell school, 316 Chain of Rocks road, and Precinct 15—Stallings school, 4401 Highway 102.

**Science Exhibits by Three Mitchell Pupils**

### Farm Leasing Problems

A frequent problem brought to the extension office is that of farm leasing. Most Madison county lands that are in farm use are covered only with an oral agreement. An oral agreement may prove satisfactory but the door is left open for misunderstandings and controversy.

Unless it can be proven otherwise under Illinois law, an oral agreement is valid only if it can be completed in one year. An Illinois law, however, recognizes that when a farm is rented without a written lease, the lease agreement shall continue from year to year unless proper notice to end it is given by either party.

Where the lease is not in writing, the landlord or his agent can require a tenant to leave a farm by giving written notice of termination at least four months prior to the end of the lease year. For example, when the normal term ends March 1, notice to end the agreement must be given on or before Oct. 31.

It is to the advantage of both landlord and tenant to have a written lease. Putting agreements in writing should be considered as sound business practice and not as a lack of trust or confidence by either party.

### Written Leases

Some of the advantages of a written lease are:

(1) It protects not only the original parties, but their heirs and assigns in case either party should die.

(2) It serves as a memorandum to which either landlord or tenant may refer in case of doubt as to the terms of their agreement, and therefore helps prevent disputes.

(3) A written lease can provide for the more important farm practices and business procedures and will thus, in case of dispute, prevent common law, custom, or court decisions from determining the application of practices or procedures undisturbed to the farm.

(4) It affords a basis for changing minor provisions when conditions arise that make adjustments desirable.

(5) It helps give assurance that both parties will consider all phases of the lease before the contract is signed.

(6) When details of farm operation are specified in the lease, the document serves as a partial history of the operation of the farm.

(7) It makes the term of rental definite and provides a basis for continuing the term of the lease beyond one year.

(8) It offers an opportunity to provide for a reasonable period of notice to terminate the lease.

## Cubs and Webelos

### Tour Press-Record

Members of the Webelos and Cub Scout Packs sponsored by the Pontoon Beach Church of Christ toured the Press-Record Monday afternoon.

Cub Scouts making the tour were Chris Anderson, Jeff Jones, Scott Matyas, Clint Snyder, Eddie Faith, and Cub Master Larry Southland, and their guests, Mrs. Sharon Snider, Eric and Cindy Snider, Charlotte Faith and David Richardson.

Webelos members Mike Ren, Frank Murphy, Scott Winters, Scott Peterson, Dan LeBrun, Dan McNew and Dennis McCaslin. Their guests were Mrs. Janet Le Brun and daughter, Denise, Mrs. Pat McNew and daughter, Lori, and the den mother, Mrs. Ruth Winters.

### Webelos Control in Wheat

Controlling weeds in winter wheat is an exacting operation. In general, winter wheat tolerates 2,4-D better than most grains but too much 2,4-D will reduce yields. Winter wheat should not be sprayed with 2,4-D in the fall.

(1) Where legumes have been seeded with the wheat, 1/2 pound of the amine form of 2,4-D per acre is the maximum amount to use. This rate will usually control most troublesome weeds, except wild onion and garlic. Spray after the wheat

**A New Start With Total Pruning**  
Some shrubs will survive to become attractive small plants in place of homely old plants. If you are in a quandary about a barberry or privet hedge, or a planting of rose hedges, then total pruning is one way to remove all the old wood without killing the plants. If you leave two inch stubs these plants will soon produce new shoots to become an attractive new plant. Total pruning is most effective just before new leaves and shoots develop.

Plants like forsythia and honeysuckle will also respond to total pruning, but the pruning should be delayed until after bloom.

Whichever plant you prune, or experiment with, be careful not to restrict the new shoots until mid summer. Modest pruning after this spurt of growth will improve shape and beauty without stimulating too much late summer growth and the risk of winter injury.

**Last Date for Crabgrass**  
Crabgrass control is more simplified than ever. One way is chemical control of the seed. Early spring application of the chemical are sure to succeed, but after crabgrass begins to grow, these chemicals lose their punch.

It used to require an expert to decide when crabgrass seed began to grow until someone noticed forsythia always seemed to bloom on the same date. Then forsythia bloom became the golden rule. All this was spoiled when nurserymen began planting different varieties to create a longer season bloom. Some of these varieties didn't know about the crabgrass date and fouled up the whole plan.

The latest formula for crabgrass control is petal fall on dogwood. Have crabgrass control materials on the lawn before magnolias drop their petals, or crabgrass will get going in spite of your treatment.

**Extra Fertilizer Near Trees**  
A sure way to promote extra effect by trees is to add fertilizer.

Poor grass near trees usually is due to the trees using most of the water and fertilizer. If you add a double amount of lawn fertilizer each spring and fall, the grass will get a fair share and the trees will use the surplus to make extra growth.

Spring and fall rains will become a partner with you to quickly dissolve the extra fertilizer and prevent burn.

A double treatment in mid-summer has no advantage because of lack of moisture and sometimes burns the grass.

### Gallatin to Speak at Eagle Scout Dinner

Harry Gallatin, assistant dean of students and head basketball coach at Southern Illinois University-Southwestern, will be guest speaker at the annual Eagle Scout recognition dinner of the Cahokia Mound Council at 6:30 p.m. Monday in the Granite City Steel Co. office cafeteria. Twenty-seven scouts will be honored.

Gallatin, a product of Roxana, attended Northwest Missouri State Teachers College. He played professional basketball with the New York Knickerbockers and the Detroit Pistons and was a member of the National Basketball Association all-star team seven of his 10 years as a player.

In 1958 he became head basketball coach at SIU, Carbondale, and his winning teams gained national recognition. He left the college ranks to become coach of the St. Louis Hawks and later the Knickerbockers.

Frank Hudak, council advancement chairman, said the

27 youths who earned the Eagle badge in 1967 will spend Monday with an outstanding leader in the scout's chosen vocational interest.

Hudak said he will learn what is required to achieve success in his chosen field, the extent of education and the necessary effort required.

Eagles from the Quad-Cities to be honored are Craig Maer and James Anderson of Post 6, James Heilrich of Post 94, John Tarpoff of Troop 15, Don Menke and Austin Lewis Jr. of Troop 8, Vann Ford of Post 45, John Jenkins of Troop 96, and Tom Modglin of Post 96.

Other speakers at the dinner will be Carl Mathias, council president; John Hundley, vice-president of Granite City Steel Co.; Eugene Coe, council scout executive; and Kollin Henn, council vice-president.

Members of the advancement committee, making arrangements for the dinner include William Hoelscher, Fred Rehagen, Roger Ward and Glenn Abernethy of Granite City.

## Teach-in on Housing Set Today at SIU-SW

A teach-in on Southern Illinois University-Southwestern campus student housing policies was set for noon today.

Mike Rauch, co-chairman of the Organizational Representative committee which is sponsoring the teach-in, said he hoped it would have a positive effect on the annual review of the university's housing policies and standards which is expected to be made by the board of trustees later this month.

Last January the student senate requested that existing policies be altered to exempt single students 21 years of age or older from the requirement to live in accepted quarters.

Several members of the faculty will join student leaders and two campus ministers in conducting the teach-in which will be held in the Communications building theater.

#### Model Plane Feature

Warren "Pete" MacZura, 3208 Aubrey avenue, has learned from the publisher of "American Aircraft Modeler" that his article has been accepted for publication and appears in the magazine's special edition, the 1968 annual, now available in drug stores and hobby shops.

The article describes the scale model Grumman "Gulfhawk" 4, a converted F8F Bearcat, relating details of its prototype and the man who flew it, Maj. Al Williams. Detailed information on how to build and paint the 36-inch gas-powered model is presented in the article.

The scale model won the national scale-model control line championship in July 1966. In August, 1966, it was shipped to England where the colorful orange, blue and white plane won first place in the world championships.

Plans for building the plane, featured in the article, were drawn for MacZura by Howard "Bill" Ogden of East St. Louis, an employee of Granite City Steel Co.

### 'Bunny Boxes' Given

#### Alton State Hospital

More than 1000 "bunny boxes" for Easter were received Monday in the volunteer services office of Alton State Hospital.

Girl Scouts of the River Bluff Council provided the treats for the fifth consecutive year. Mrs. Edgar Votaw, 2705 Angela drive, chairman of District IV Girl Scouts, is chairman of the special project.

Every patient in the hospital will receive an Easter treat. Each box contains Easter candies and cookies, and each looked as though the Easter bunny participated in decorations, according to Mrs. Marjorie Dintelman, volunteer supervisor, who said "receiving the boxes from the Girl Scouts is a delightful event for our patients."

### Federal Grants to Aid

#### Low Income Students

Two federal grants intended to benefit students from lower income families have been received from the U. S. Office of Education by the Office of Student Work and Financial Assistance of Southern Illinois University.

The larger grant, for \$420,000 will support the college work-study program at SIU for the six-month period from July 1 to Dec. 31. The other, for \$261,190, will provide educational opportunity grants for students from very low income families during the fiscal year July 1, 1968, to June 30, 1969.

The grant for the college work-study program pays the salaries of needy students who work part time on campus. The total support expected for this program from the federal government for the fiscal year beginning July 1 will be about \$900,000, according to Frank C. Adams, director of the Office of Student Work and Financial Assistance.

At present, Adams says, there are about 1000 students on the Carbondale and Southern Illinois campuses combined who are working under the program. For the whole school year about 1000 students will benefit from the funds, he says.

The total number of SIU students who work at part time campus jobs is about 5000, with federal funds paying about 20% of the amount for salaries and state funds about 80%.

Students from very low income families can qualify for one of the educational opportunity grants which pay from \$200 to \$800 per year, depending upon circumstances of each individual case. Students who receive this aid would in most cases not be able to attend college otherwise, Adams said.

## Seek Bids on New GCHS Band Uniforms

After many decades, Granite City high school band students in 1968-69 will sport a new look when they perform in concerts or march in parades or athletic field formations.

A decision to purchase new uniforms was made by the Granite City school board Monday night.

The board approved a design submitted by DeMoulin Brothers & Co., Greenville, which cooperated with the GCHS Band Parents Association in incorporating features desired by local band enthusiasts.

Specifications have been prepared and competitive bids will be sought from DeMoulin and other companies on supplying 150 uniforms. The purchase is expected to exceed \$10,000, but the uniforms will be of a type that can be altered and mended for long use.

### Description of Uniforms

There will be black trousers and skirts with red and white stripes for decoration; black double-breasted jackets, complete with brass buttons and red and white epaulets; and for marching, red "shako" hats with bills and chin straps, plus white overlays for the jackets.

On the front of each overlay will be the Warrior emblem, an Indian head in profile. On the back will be a red design including a musical device, "Granite City" and a design combining the GCHS initials.

The uniforms will be of 16-ounce wool whipcord. The overlays and hats will be of cloth and plastic construction.

Replacement of the present band uniforms, which are believed to date back to the 1890s, has been under discussion for several years, with financing the principal deterrent. The project is a part of the current school budget.

Several months will be required for the uniforms to be cut, sewn and completed. They are expected to be available prior to the start of the new term in August.

### Cash Awards to be Given to SIU Seniors

Two awards for academic excellence for graduating seniors of Southern Illinois University's Carbondale campus will be made annually by the Foundation Board. Kenneth R. Miller, executive director of the foundation, has announced.

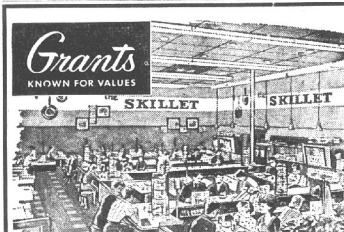

Each student selected will receive a plaque and a cash award of \$50, Miller said. One award will go to the outstanding man, the other to the outstanding woman.

In addition to high academic honors, the students to receive the awards will be selected also on the basis of their growth during their college years and their contributions to the university and the community, he said.

The first awards will be presented at the meeting of the foundation board held at the time of the university's June commencement.

Similar awards have been made to top-ranking seniors at the southwestern campus for several years, Miller said.

## Riot-Torn City Described At Family Services Meet

Grady Mardock, director of the inner city district of the Family Services Bureau of Chicago, described the devastation of riot-torn Chicago at the annual dinner meeting of the Family Services Agency of Southwestern Illinois Monday night at the Roundtable restaurant, Collinsville.

Speaking on "Family Life and the Crisis in Our Cities," Mardock told of the efforts of the 25 professional social workers on his staff to meet the emergency needs of hundreds of homeless families for food, clothing and shelter.

He arrived directly to the meeting, coming from Chicago's west side, to deliver his 1½-hour long address though he had virtually no sleep for 72 hours.

During the meeting, Michael H. Dalton, executive director of the local agency, reported that the volume of service provided by the agency during 1967 to residents of Southwestern

Illinois was by far the largest in the history of the agency, founded in 1957.

He said 838 families were served through a total of 460 in-person interviews and 3092 telephone interviews for a total of 7792 professional contacts.

During the business meeting conducted by Mrs. Harold G. Baker Jr., retiring president, four new members were elected to the board of directors: John Haynes Jr. of Madison, Rev. Louis E. Hemmers and James P. Stiehl of Belleville and Mrs. Frank Woodson of East St. Louis.

Mrs. L. C. Farquhar of Belleville was elected president for the coming year. Other area members include Dr. Felicia Koch, Randall Robertson and Terry Francis of Granite City. The agency is supported by four United Funds, including the Tri-Cities area UP, and local citizens are interviewed in the office of Coordinated Youth Services, 1255 Niedringhaus avenue.

## GCHS Band 'Tag Days' To Raise Funds for Trip

Uniformed members of the Granite City high school band today are in evidence throughout the community, as the annual "Band Tag Days" got under way this morning. The fund-raising campaign which enables band students to finance their yearly out-of-state tour will continue through Saturday.

This year's trip, April 28-May 3, will take the youthful musicians to New Orleans, La., where they will perform at local high schools in conjunction with a well-earned sightseeing holiday.

Working in pairs or small groups, the band students are soliciting funds from local residents at numerous locations, including the downtown Granite City business district, Bollimore and Nameoki shopping centers and adjacent to grocery firms in Nameoki and Pontoon Beach.

In addition to posts throughout all major business areas, the boys in the band began an early vigil this morning at the entrances to Granite City Steel Co., General Steel Industries, National Lead Co., and Union Starch & Refining Co. Other groups will be stationed

at the three local banks today and tomorrow.

The students are being assisted by members of the Granite City High School Band Parents Association, with Mrs. Le-

roy Jung coordinating activities again this year. She said between 40 and 50 parents, working in shifts, are expected to provide transportation for the students to their pre-assigned stations during the three-day drive.

Headquarters for the campaign are located in the band room annex at high school, which also is serving as the central collection point.

All 120 band members are pitching-in to help make the

drive a success, Mrs. Jung said. Adding that any contribution is greatly appreciated, the chairman noted without the generosity of local residents, students would be unable to arrange the tour.

#### Burn Victim at Local Plant is Recuperating

John Polivick, 4988 Carl avenue, a local operator at General Steel Industries who was burned on the left foot by molten metal last week, is recuperating at St. Elizabeth Hospital. Polivick also suffered burns to his arms and left leg as the metal came out between the upper and lower sections of the core. He suffered third degree burns to his foot and is expected to be in the hospital another 10 days.

#### Lost Purse Claimed

Mrs. Della Waynick, 2119 Benton street, found a black purse in a telephone booth at 20th street and Niedringhaus avenue and delivered it to the police station at 3:30 p.m. Tuesday. It was claimed 15 minutes later by the owner, Mrs. Carolyn Lewis, 2408a Nameoki road.

#### Speeding Charge Filed

## Food Stamp Bonus Offered to Boost Use of Program

A new reduced payment plan to step up participation in the Food Stamp program was announced today by R. C. Gwin, superintendent of the Madison County Public Aid department. The plan will start May 1 and will apply to eligible persons who never have participated in the program, and to former participants who did not buy stamps in March and April this year. Such persons may buy the stamps at half the regular cost and receive the same amount of stamps as for a full payment.

The offer is good only for the first month's purchase of stamps when either joining or rejoining the program. The opportunity expires April 30, 1969.

The food stamp program began in Madison county in December 1963 under the joint sponsorship of the Illinois Department of Public Aid and the U. S. Department of Agriculture. It enables eligible persons to buy food stamps and receive free bonus stamps which increase their food purchasing power by more than 30%.

Cite Family Example Public aid recipients are

eligible to participate except those in institutions such as nursing homes and sheltered care homes, and those who eat under commercial arrangements because they are unable to prepare their own meals. Persons not on public aid may be eligible if their assets and net income are low by public aid standards. Allowable net income ranges from a maximum of \$239 for a household of one to a maximum of \$480 for a family of ten.

As an example of benefits to an ADC family of a mother and three children, the family's food budget of about \$84 increases to \$108 through bonus stamp features. The mother buys \$66 worth of stamps and receives an additional \$24 worth of stamps free.

She therefore has \$90 worth of stamps plus \$18 left over in cash bringing the total purchasing power from \$84 to \$108. If she is a newcomer to the program, her first purchase would cost only \$33 instead of \$66.

Persons receiving ADC, aged assistance or assistance to the blind and disabled, and low-income non recipients may contact the Madison County Department of Public Aid at 118a Hillsboro avenue, Edwardsville. Recipients of general assistance should check with their local general assistance office.

## New Rate Helps County Set Sales Tax Record--\$255,017

Aided by the Aug. 1, 1967, increase in the retailers' occupation tax from 1/2% to 3/4%, Madison county netted a record \$255,017 in unincorporated area sales taxes for the 1967 calendar year, an annual Illinois Revenue Department report disclosed this week.

The five-cents-a-dollar sales tax (four cents until mid-year) collected in rural areas goes to Springfield, with 4 1/4 cents (formerly 3 1/2 cents) retained by the state and the remainder disbursed to the counties from which the funds originated.

Madison county adopted the half-cent tax on Oct. 1, 1959, and the \$255,017 revenue for 1967 increases the grand total to \$1,585,461.

A breakdown by years follows: 1959 (three months), \$29,535; 1960, \$146,013; 1961, \$148,071; 1962, \$168,187; 1963, \$176,619; 1964, \$174,704; 1965, \$197,715; and 1966, \$208,973.

Based on five-twelfths of the year, the 50% tax boost, from a half-cent to three-quarters-cent on each dollar, would cause a full-year gain of 20.83% in the tax funds.

The actual gain of \$46,044, from \$208,973 to \$255,017, is 22.03%, indicating that the overall business on which the tax was levied increased slightly from 1966 to 1967.

**Monthly Comparison**  
A breakdown by months for the past calendar year follows, with the same month in 1966 shown in parentheses: January \$14,499 (\$13,674), February \$15,378 (\$13,255), March \$17,484 (\$17,254), April \$16,743 (\$16,246), May \$16,845 (\$16,214), June \$20,577 (\$19,997), July \$18,402 (\$17,727), August \$25,361 (\$16,000).

Of the funds collected for return to the county treasury, the state deducted 4% to cover its administrative costs.

The figures announced this week did not include service occupation taxes, which are in litigation.

With counties authorized by the General Assembly to increase their portion from 1/4% to 3/4% as of last Aug. 1, a total of 85 of the 102 Illinois counties had done so by the end of the calendar year.

## Ranft to Talk For Port at N. Y. Meetings

Carl A. Ranft, manager of the Tri-City Regional Port District, will go to New York next week as a member of one of seven Illinois "teams" of industrial and business leaders that will call on New York industrialists to solicit an expansion of industry into this area.

Plans for the trip were discussed Monday night in a regular meeting of the Port District board. The program has been arranged by the Illinois Department of Business and Economic Development which has sponsored similar discussion tours in recent years.

A total of 33 New York industries and businesses will receive members of the various Illinois teams who will outline available facilities in this area to industries planning potential expansion. Seven Illinois teams have been organized, Ranft said. The meetings will begin in New York next Tuesday and continue throughout the week.

The board, in its meeting Monday night, authorized Shepard, Morgan & Schwab, Granite City engineers, to prepare a report on the district's bond-financed facilities for the Continental Bank & Trust Co. of Chicago, and discussed lease provisions with National Marine Service for the new storage tank recently completed at the port on the Chain of Rocks canal.

## Wilkins Honored by Communications Group

George Wilkins of Granite City, former state superintendent of public instruction, was among educators and television representatives honored recently at Illinois State University, Normal, for outstanding contributions to educational telecommunications in Illinois.

Wilkins, associate professor of education at the Southwest campus of Southern Illinois University, was cited along with two other SIU faculty members and several educators of other schools. Commercial television officials associated with school projects also were honored.

The ceremony opened the first annual meeting of the Illinois Council of Educational Communication. John H. O'Neil, associate superintendent of public instruction in the office of Ray Page, Springfield, handed out the certificates of recognition.

Acting on behalf of Page, who was unable to attend, O'Neil praised the work of personnel and agencies who assisted in the development of telecommunications in Illinois schools.

Wilkins was lauded for his "pioneering efforts" in helping to form the framework for telecommunications in 1957 when he was chief educator of the state.

# Quad-City School Districts to Elect Board Members Saturday

## Granite City Candidates

## Seven in Madison Race

### SCHOOL BOARD CANDIDATE QUESTIONS

Eight questions were asked each candidate seeking election in the April 13 school elections in the Quad-Cities. Their answers are given at the end of their biographies.

- The questions:
1. Do you favor operational year - around schools with staggered quarterly vacations, without loss of state aid?
  2. What improvements do you propose for the schools?
  3. Do you favor the board handling administrative duties?
  4. Do you favor competitive bidding on all purchases?
  5. Do you favor reimbursement of actual listed expenses rather than fixed allowances?
  6. Do you favor a "pay as you go" policy rather than borrowing to meet operating and construction costs?
  7. Do you favor lowest possible secretary and treasurer pay so that the two positions do not become patronage prizes?
  8. Should the school board set school policies and not allow others to set them?

#### GEORGE E. MOORE SR.

George E. Moore, a quality control director at the Granite City Army Depot, is seeking election to another three-year term on the Granite City school board. He now is completing his first three-year term.

Moore is 46, lives at 1329 St. Clair avenue, is married and has four children. He was graduated from Granite City high school and attended Purdue University and Southern Illinois University. He is a member of the Parent Teacher Association and served on the Illinois Citizens Education Committee, the Southwest Illinois Study Commission, White House Conference on Education and the School Bond Issue committee.

He also is a member of Optimist International, the Boy Scouts of America and is a member of the Methodist Church.

Moore's answers to the questions:

1. I am not certain. I am not sure of the effects it would have upon the quality of the educational program. A committee is making a study of this and I couldn't say now whether I would be for or against year-around school.
2. Continued improvement and expansion of the educational program to provide everything that is needed in a rapidly growing demand for a variety of subjects.
3. No sir!
4. Yes.
5. To a degree. It is reasonable in some instances to award a flat amount of expenses to apportioned expenses.
6. Yes.
7. Yes. I favor no pay for the treasurer and a minimum compensation for the secretary.
8. Yes. That is the reason for the board's existence.

A resident of Granite City for 48 years, Roberts has been employed at Dow Chemical Co. for 15 years where he is an inspector. He formerly was employed at Granite City Steel Co. for four years, served in the U.S. Army for seven and a half years and was ROTC instructor of Indianapolis high school for two years.

He received his education in the Granite City Public Schools, Southern Illinois University and Butler University, majoring in accounting.

Roberts presently is recording secretary of Local 4804, United Steelworkers of America, a post he has held for eight years; is a past vice-president and treasurer of the local and a delegate to the Tri-City Trades and Labor Council.

He is a member of the board of directors of the United Fund for 1968, a member of the United Steelworkers Officers Council, a delegate to the Committee on Political Education (Cope) and was a Weblee leader of Cub Pack 12 during 1967.

Roberts is 49, is married and has one son.

At his reason for seeking office, Roberts said:

"A country's greatest asset is an educated population. The achievements that they would accomplish are unlimited. Our increasing population makes education more vital, yet more difficult, because of the need for more administrators, teachers, school district employees and buildings. I want to help

#### DONALD STUCKE

Donald W. Stucke, 45, of 1613 Clark avenue, is seeking election to a full three-year term as an urban member of the Granite City school board. Stucke is an incumbent member of the board, serving by appointment.

Stucke was appointed to the board Aug. 1, last year to replace William L. Harris, who resigned July 10, 1967. Harris' term was to expire this year, requiring Stucke to seek reelection.

He was an unsuccessful writer in candidate for alderman of the Eighth Ward in the 1967 municipal election. He was born at Mitchell and has been a life-long resident of the area. He is employed as a tool designer at Carter Carburetor, St. Louis.

Stucke was graduated from the Granite City high vocational school. He is a member of Amvets Post 204 and is a Democratic committeeman of Granite City Precinct 2.

He is married and has three children.

Stucke's answers to the questions:

1. Yes, I would be in favor of it, but I don't believe it would work, primarily because of the clashes in vacations of parents and the children.
2. One of the first things we need badly is increased maintenance within the school system. My other objective is fulfillment of the building program.
3. No. We should make it a point to hire capable administrators to handle administrative tasks.
4. On all major purchases, yes. Sometimes the lowest bid is not always the best bid.
5. I would favor itemized allowances.
6. I am strictly in favor of a pay as you go policy since it would mean substantial savings to the taxpayers.
7. Yes, but I believe the salary should be commensurate with the volume of work involved.
8. The school board should set all policies.

He has been a resident of the area for 40 years, having held membership in Electrical Workers Local 915, Boilermakers Union of East St. Louis, Teamsters and Chauffeurs Union Local 61, Letter Carriers Local 132, Postal Carriers Local 182 and presently a member of Postal Supervisors Local 211. He has served as president and secretary of both the carriers and clerks' locals.

Metcalfe's answers to the questions:

1. I have been studying the many angles of this proposition, but am unable to honestly answer the question at this time.
2. I would like to see legislation on the number of students in each class to provide more individual attention for students.
3. I think administration is the job of the administrators. It is the board's responsibility to see that the administrators do an efficient job.
4. Definitely.
5. I believe the administrators know pretty accurately what the nominal cost would be in most cases.
6. I would prefer to avoid any question of indebtedness.
7. Yes, I would, but the salaries should be commensurate with the demands of the jobs.
8. The school board should set policies after conferences with administrators and teachers to get the best results.

2. Whatever means are necessary to keep improving our schools. We have several improvements now underway, including construction of nine additional classrooms and establishment of vocational training school to benefit all Venice residents, high school graduates or non-graduates.
3. No. Definitely not.
4. Yes.
5. In most instances. If a fixed expense allowance is granted, any unused portion should be repaid to the district.
6. Yes.
7. I do not believe either position should be a patronage or political prize. However, board members have enough to do. Therefore, those holding these positions should be adequately compensated.
8. Definitely. The board should set the policies.

7. We should stay within a minimum as prescribed by school standards.
8. I believe the board should set school policies in consultation with administrative personnel and faculty members, as their cooperation and knowledge is invaluable to workable programming and policies.

Having served on the Board of Education for 16 years, and at present the president of the Board of Education, through this medium I have made a constant study of the problems existing in this changing society relative to a good school program. My main objective for serving on the Board of Education is to see to it that we have a quality educational program for every boy and girl that our school system serves.

He said he believes his experience and the knowledge he has gained in the school system qualify him to give proper consideration of decisions necessary to proper policy and procedure for the school system.

Derner's response to the questions:

1. Yes.
2. Better and more qualified education and more harmony in the schools. There always is room for improvement in school systems.
3. To a certain extent, yes, as far as policy is concerned, yes, but rules should be up to the administrators and faculty.
4. Definitely.
5. Itemized expenses.
6. Yes.
7. Yes.
8. School policies should be set all the way by the board.

Johnston, an agent associated with Metropolitan Insurance Co., was born in Madison and has been a lifelong resident of the community.

Johnston also is a member of the American Legion, Henry Mitchell Post 799. He is married and has one son.

He said one of his chief objectives in seeking election to the Madison school board is to work toward better communication between the school board and the community.

His answers to the questions:

1. No.
2. To give an intelligent answer to this question I would have to study the school operation more.
3. No.
4. Yes.
5. This could work both ways. I would have to consider it.
6. I naturally prefer to operate on a pay as you go basis, but sometimes it is necessary to borrow to keep operating.
7. I would do everything possible to prevent any school position from becoming patronage prizes, but I also would uphold a proper salary for the work involved.
8. I believe the board should be aware of all school policies, but not necessarily set all of them.

In answer to the questions, Watson said:

1. No.

2. Improved communications between the school board and the community is immediately necessary. I would have to study the overall picture before working up any program.

3. There are certain administrative duties the board has to handle, but not to the extent it now does.

4. Definitely.

5. Itemized accounts.

6. A school district is sometimes forced to borrow.

7. This would depend upon the amount of work involved. A reasonable salary should be paid, but by no means an excessive one.

8. Definitely not. Many of the policies should be set through advice from administrators and teachers. Teachers should play a much bigger part in setting school policy.

Watson was active as a leader of a white parents group that alternated with a Negro parents group in conducting pupil boycotts at Madison senior high school last November in a racial dispute over dismissal of a number of Negro football players from the school squad.

He is a special railroad police agent in the Venice, Brooklyn and National City Yards. He formerly served eight years in the U. S. Army military police corps as military investigator, staff sergeant and patrolman.

He graduated from Hickman high school at Columbia, Mo., and has a partial college credits from the U. S. Armed Forces Institute. Watson is a member of the Greater St. Louis Railroad Police Club and the Madison-Venice Khoury League.

He is married and has a daughter and a son.

Watson said of his candidacy:

"I feel there is a vital need to get politics out of our schools. We cannot retain good teachers if we fail to back their judgment. I believe that my election to the board would be much needed hope for them."

In answer to the questions, Watson said:

1. No.
2. Improved communications between the school board and the community is immediately necessary. I would have to study the overall picture before working up any program.
3. There are certain administrative duties the board has to handle, but not to the extent it now does.
4. Definitely.
5. Itemized accounts.
6. A school district is sometimes forced to borrow.
7. This would depend upon the amount of work involved. A reasonable salary should be paid, but by no means an excessive one.
8. Definitely not. Many of the policies should be set through advice from administrators and teachers. Teachers should play a much bigger part in setting school policy.

Johnston, an agent associated with Metropolitan Insurance Co., was born in Madison and has been a lifelong resident of the community.

He formerly worked 12 years as a letter carrier at the Madison post office. He was educated in Madison public schools and attended Alabama State Teachers College and Hubbard Business College of St. Louis. He is a member of the Mount Nebo Baptist Church.

Johnston also is a member of the American Legion, Henry Mitchell Post 799. He is married and has one son.

He said one of his chief objectives in seeking election to the Madison school board is to work toward better communication between the school board and the community.

His answers to the questions:

1. No.

maintain and try to improve the high quality of education that we have enjoyed.

1. I would if it were unavoidable.
2. We need more schools and more wages.
3. No.
4. Absolutely.
5. Actual itemized expenses.
6. We couldn't because construction would have to be financed with bonds or other means of borrowing.
7. The lowest possible salary.
8. I believe we should set policies according to public desires.

# Seven in Madison Race

## Only Opposition In Venice Race

CONTINUED FROM PRECEDING PAGE

More About ...  
**REV. LONNIE CALMISE**

State Convention of Illinois and the New Salem District Association.

He has never held public office previously and said he is seeking election to the Madison school board "to secure better schools and educational facilities, to promote better parent-teacher relationships, to help create the best possible conditions for both teaching and learning for all concerned."

Rev. Calmisse's answers to the questions:

1. I would have to study this more I could give an answer.
2. A more integrated facility is a needed policy change. Until I have an opportunity to study the overall program I can give no further proposals at this time.
3. No.
4. This question I cannot answer at this time.
5. I would favor a salary commensurate with the work required.
6. I think this is what the board is for.

with the public and school board members.

"As for the racial issue, perhaps the revision of a PTA organization or similar institution could bring about a series of discussions. Emphasis should be on academic affairs rather than athletic events and letters."

Gusleff's answers to the questions:

1. Yes.
2. First I would like to see an upgrading of the academic side of the educational program and innovation of experimental teaching and team teaching.
3. No, I do not.
4. I certainly do.
5. Actual itemized expenses.
6. I would favor borrowing to make it possible to plan into the future.
8. Definitely.

Politics should not be allowed to enter the schools. I'm opposed to high salaries for the teachers.

The school board is elected to hire competent people and should set the school system salary, we would get what we pay for.

Others should be consulted in deciding policy.

# GC Council to Decide on Tax Rates at Special Session

Granite City council members heard an outline of possible expansion of present taxes to raise funds for the city, but agreed Monday night to study the advice of a state revenue department team and reach a decision during a special meeting to be called.

Alderman Rutledge, chairman of the council's Finance committee, presided at Monday night's committee session to which all city officials had been invited to review revenue problems. With 14 of the 16 alder-

men present, Rutledge suggested the members might reach an agreement that evening, but then suggested a special meeting next week.

With current funds, to last only through May and a delayed collection of 1967 taxes until late summer for the start of the new fiscal year on May 1, Rutledge noted the city might go through its working cash fund of \$193,330 in short order and be forced to borrow money at interest.

**Reserve Funds Gone**  
The Finance chairman added

that the city could have retained its \$400,000 sales tax reserve if during the past four years the council had agreed to levy more taxes for sewer maintenance. Much of the sales tax reserve went in the past few years for costly sewer repair projects. The city could levy a 10-cent tax rate for sewer maintenance. Last year, the rate was 1.62-cent.

The state revenue department team of Alvin Keller, Jerome Reilly and Richard McKain explained they will aid cities in preparing budgets, but because of prior commitments, could only give minor aid to Granite City this year.

Keller added that the department is anxious to work on a budget for a city the size of Granite City to develop its plan to prepare standard budget forms for municipalities.

Several special levies for which the council could set tax rates, not previously done, would include a rate to cover the cost of the annual audit and another to reimburse the city's general fund for costs of judgments dating back 10 to 15 years.

The city also will be able next year to increase its general fund levy of 19.57 cents to 25 cents, and by a three-fourths vote of the council, could boost the street tax rate from this year's 5.79 cents to 10 cents.

A referendum would be needed for a 10-cent police protection tax, and it was noted that for fire protection, the 1966 tax rate of 16 cents was cut to 10 cents which is the limit permissible by law. The city has leeway for increasing its street lighting tax of the current 2.12 cents to five cents, and could levy a five-cent tax for public benefit, Keller explained.

As another possible source of income, the council has mentioned a tax on utility bills in the amount of 5%. In discussing the proposal, the aldermen noted it is an unpopular tax and is paid by the consumer through the utility firm. A study was ordered last week to determine if the city should upgrade its present tax rates or add the utility tax.

The state advisor told council members they could reduce the drain on the general corporate tax by using the available tax rates. He suggested the city also could consider appointment of a budget director to facilitate the handling of departmental budgets. "It could be the mayor or the comptroller or the city clerk," Keller added.

With an organized procedure the city could adopt one single ordinance for the budget and the appropriation, a n.d. the state revenue department would aid in the development of such a program, the advisor told the aldermen.

An advantage, he explained, would be that the state revenue department staff could meet with departmental heads in Granite City to work out jobs and projects for a five-year period and that surplus funds

could be accumulated without the threat of tax objections. "These surplus funds," he added, "could be used to build a new fire station or carry out any special improvement programs."

**Decision Is City's**  
Keller told council members the ultimate decision on the budget rests with them and that the state staff would aid in determining costs and the revenue available.

Rutledge pointed out the city's fund transfers this year probably will total \$683,000, amounting to \$868,940 to date. "We've got a real problem on what to do this year and next. We started this year with reserve funds of \$312,000 and added \$480,000, but all of our reserve accounts will be empty this fiscal year—sales tax, parking meter and excess commissions."

When Alderman Robertson asked if he was saying the council members were not good managers, Rutledge answered, "We're afraid to face the responsibility placed on us by the taxpayers in Granite City. City government here is costing the average property owner about the price of a package of cigarettes a day, and they couldn't get by that cheap in paying individual costs for having trash and garbage hauled away."

James Barton, township tax assessor, suggested the city strive to educate Granite Cityans that only a small portion of the tax dollar goes to the city. Mayor Partney and Rutledge figured it would be about 16.6 cents of each tax dollar paid by Granite Cityans that goes to the city.

Present for the committee meeting were Aldermen Dallas, Moellen, Whitmer, Boyd, Poulos, Green, Rutledge, Basarich, Fry, Partney, Jarrett, Robertson, Daves and Johnson. Absent were Bartosiak and Norn. Other officials present were Mayor Partney, Comptroller Robert Stevens, Treasurer E. R. Rich, Street Supt. Warfield and Township Tax Assessor Barton.

**Vandal Padlocks Auto**

Charles Hahn, 821 Niedringhaus avenue, told police Monday night that someone padlocked a chain around the front bumper of his 1963 auto and to a post flanking the parking lot of the First Baptist Church, 21st street and Delmar avenue. He said the post was bent parallel to the ground but there was no visible damage to the car.

Sharp Re-Elected By TRRA; Moore on Board

J. H. Sharp was re-elected president of the Terminal Railroad Association of St. Louis at a meeting of the board of directors held Monday at the company's offices in Union Station. Sharp has served as president since November 1965.

Also re-elected were George P. Mueller, vice-president, secretary and general counsel, and H. N. Lee, treasurer.

The directors' meeting followed the annual meeting of stockholders, at which W. H. Moore, vice president-operations of the Southern Railway System, was elected a director of Terminal Railroad. Moore is a former TRRA president, having held that position from September 1963 to November 1965.

Sharp will also continue to serve as chairman and ex-officio member of the railroad's executive committee.

Elected as members of the executive committee were W. S. Clement, vice-president-western region, Norfolk & Western Railway Co.; L. C. Ethington, vice-president-operations, Chicago, Burlington & Quincy Railroad Co.; D. B. Jenks, president, Missouri Pacific Railroad Co.; J. C. Kenefick, vice-president-transportation, Penn. Central; D. L. Manion, executive vice-president, Chicago & Eastern Illinois Railroad Co.; H. J. McKenzie, president, St. Louis-Southwestern Railway Co.; and R. E. Stevenson, senior vice-president, Gulf, Mobile & Ohio Railroad Co.

Elected to the TRRA finance committee were G. W. Kelly, senior vice-president-operations, Rock Island Railroad; W. H. Kendall, president, Louisville & Nashville Railroad Co.; J. W. Barriger, president, Missouri-Kansas-Texas Railroad Co.; H. C. Kohout, vice-president and general manager, Penn. Central; and Jenks, Missouri Pacific president.

Sharp is chairman and ex-officio member of the finance committee.

Called to Grass Fire

Venice firemen were called to the Washburn tracks and Merchants highline at 5:15 p.m. Monday to extinguish a grass fire along the tracks. Firemen were at the scene 15 minutes. There was no damage.

Purple Martins will be living in an elaborate birdhouse—a two-story structure with 16 apartments—built by Edward J. Henson, 77-year-old retired carpenter foreman.

Henson, who has a fullscale workshop at his home, 2533 Grand avenue, said he worked nearly two months in his spare time to complete the 23x7x24-inch apartment that even has shutters.

He cut, planed, sawed and sanded nearly 150 individual pieces of wood, using cypress, white pine, fir and plywood, before putting the structure together and painting it white with green trim.

"It's the second one I've built, and I'm giving both of them away. This one goes to my son, Paul, and his family who live in Collinsville. The other one I gave to a friend."

Henson, who worked 32 years at Union Starch & Refining Co. as a carpenter, millwright and then carpenter foreman before he retired, said he hasn't decided if he will go further with the birdhouse hobby or to switch to other items.
